

eScape Structure-Style Reference Guide Sheet Open Office ODT to ePub Convertor

These styles apply to the following Open Office template **OTT Name: igp-eScape-book-template-Revx.ott**

Format Metadata

Metadata is created from the information in this section and not from the ODT fields. You must use Identifier as that becomes the primary filename

metadata-igp	Creates the OPF metadata
--------------	--------------------------

Book Section Styles

All applied book section styles create a separate XHTML file

frontmatter-HalfTitle-igp	
frontmatter-Title-igp	
frontmatter-Copyright-igp	
frontmatter-Dedication-igp	
frontmatter-Contents-igp	
frontmatter-Foreword-igp	
frontmatter-Preface-igp	
frontmatter-Introduction-igp	
body-Part-igp	
body-Chapter-igp	
backmatter-Appendix-igp	
backmatter-References-igp	
backmatter-EndNotes-igp	
backmatter-Copyright-Alternate-igp	
backmatter-Acknowledgements-igp
